Go Geocaching with your Mobile Phone

The Trimble® Geocache Navigator™ is the first fully featured geocaching application for the mobile phone. It is linked directly to Geocaching.com's cache listings and provides you with real-time access to caches near your location. If you have a GPS enabled mobile phone on Sprint, Nextel, Boost or Southern Linc networks, or a BlackBerry smartphone with built-in GPS, you can get started without a standalone GPS unit, cables or cache data printouts.

New! Nokia Series 60 owners can download a free ad-supported version of Geocache Navigator. [More...](#)
